**Date:** Monday, September 18, 2017 9:44:52 PM

---

Greetings:

I am writing to request that you re-evaluate the permit for this ill-considered project located within the Pinehurst Green Grid. If you will please read this [SPU page](#), you will note that SPU spent four years and \$1.9 Million on this Green Grid, in part to “enhance the pedestrian experience in the neighborhood while benefiting wildlife habitat in the [Thornton] Creek”.

This new project, with its removal of every mature tree on the property, flies in the face of the intent of the Green Grid and diminishes its potential for success. Please don't let this proposal go forward as planned.

Thank you for your consideration.

Sincerely,

Ruth Williams,
